SANIPRO
GLOBAL LEADERS IN PIPE LINING

HOW IS SANIPRO INOVATING THE PIPE LINING INDUSTRY?

The team at SANIPRO have spent decades, developing, testing, creating & distributing the highest quality, most cost effective pipe lining systems & the most long lasting manhole & pit coatings. Giving you more working time, and an option to solve almost every problem. SANIPRO specialise in the manufacture, supply & distribution of NO-DIG TRENCHLESS equipment & materials globally. We find the most innovative, advanced and cost effective trenchless brands from around the world, to make it easier than ever before to ADD trenchless services to your repertoire of repair options.

THE PROCESS

www.saniproglobal.com

01

Clean the Pit

Preparation of the pit prior to coating is imperative. High Pressure Cleaning will ensure the products bond to the pipe correctly.

02

Seal Infiltration

Sealing off Infiltration ensures that your coatings have the best life expectancy & saves the council a Millions of dollars in the pump stations every year.

03

Rehabilitation

Mortar & Sewer resistant Epoxy coatings rehabilitate the existing foundations, and ensure a fully operational sewerage system

2023-2024

PRODUCT OVERVIEW

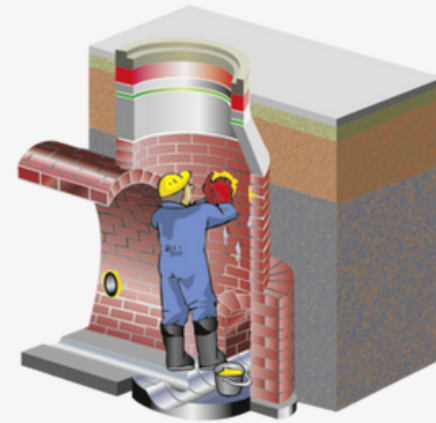

SANIPRO GLOBAL have different products & methods for different purposes. From our M-Coating Range to our NEAR INSTANT Ergelit Product range. will give you an excellent finish every time. We are proud to present a product range that is SAFER, FASTER & more RELIABLE. Significantly reducing Cancer causing Carcinogenics & Chemicals located in nearly ALL of our competitors products.

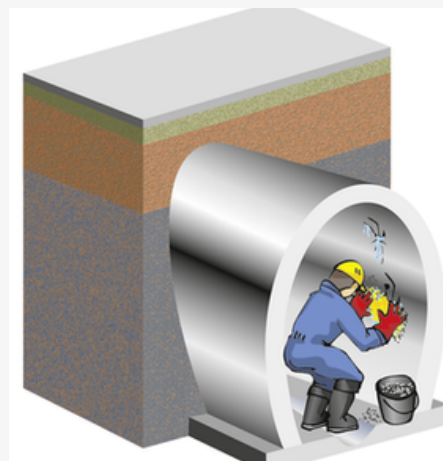

2024-2025

LATEST PROJECT

ERGELIT - DRY MORTAR RANGE
For Drain & sewer construction & rehabilitation

HERMES-1K-INJECT
Resin sealing system where there is high volume water infiltration.

HERMES-WS-QUICK
2 part Injection resin that foams lightly on contact with water

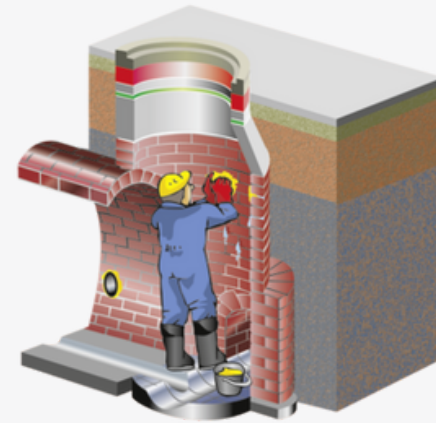

HERMES-WS
Resin sealing system even where there is heavy water ingress

2024-2025

LATEST PROJECT

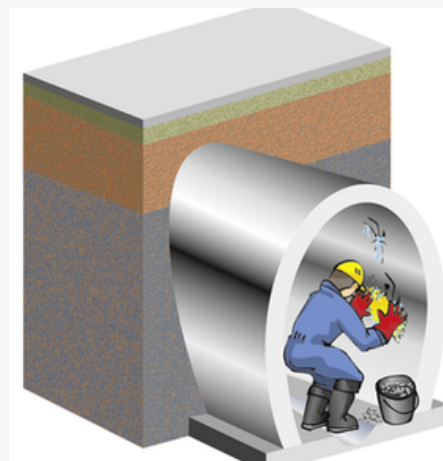

M-COATING SYSTEM

The perfect solution for pit rehab. Fully Automated coating system

ERGELIT-OED

Surface protection for the environment. Tanks holding grease & oil

ERGELIT-10SD

Seals localized leaks. This product can even be used underwater.

ERGELIT 10F RAPID

Seals off small leaks in seconds! Applied to dry pits.
